

- ↳ state, prop
 - ↳ class Based components
 - ↳ state
 - ↳ function based component
 - ↳ stateless (now, we can mut using useState)
 - ↳ stateless hooks (special JS function)
- 2019, React 16.8 React Hooks
- why state is needed in function component?
- ↳ Myths:
 - ↳ create state inside function based component
- React Hooks
- ↳ introduced in 16.8
 - ↳ only available function based components
 - ↳ a lot of pre-defined hooks
 - ↳ useState
 - ↳ useEffect
 - ↳ useRef
 - ↳ useReducer
 - ↳ usememo
 - ↳ usecallback
 - ↳ also create your own hooks
- App →
- mutable state
- immutable state
- Props
-
- state inside function based components
